Dear all,

Greetings from JIPMER Puducherry!

JIPMER SURGERY UPDATE is back in its fourth edition, bigger and better, and with a more unique programme. We have retained all the items targeting clinical skill enhancement among surgical residents and undergraduate students, which have made JSU the most anticipated PG programme in the country. These include clinical case discussions, panel discussions, and lectures by experts on the management of common surgical conditions. Residents also have an opportunity to showcase their posters and quizzing skills and win exciting prizes.

This year, for the first time, we have teamed up with *ETHICON Skills lab* for two Hands-on workshops that will expose PGs and UGs to basic and advanced surgical skills (Staplers and Laparoscopic skills)

We welcome you all and look forward to your participation in this enjoyable academic feast.

Regards,

Organising team
